# H1 2020 Balance Sheet

- Trade Receivables stayed flat, despite the current situation. A large customer (public administration) in Portugal represents a significant percentage and, without that effect, the rest has actually decreased
- The Company raised substantial bank debt in the first semester (€3.64M) in order to bolster liquidity position in case market conditions were to deteriorate, and therefore finished with €4.31M in cash (compared to the €1.56M at the end of 2019)
- Exchange rate differences also increased due to the volatility of the Latam currencies

# COVID-19 Impact and End of Year Guidance

- COVID-19 has impacted the business
  - i. Sharp plunge by currencies in Latam, by as much as 25%, with an impact of ~€255K
  - ii. Significant increase in discounts, made to help customers experiencing financial difficulties due to the COVID-19 crisis with an approx. impact of ~€110K
