PRE-CLOSE  
PRESENTATION

1H FY25

# Trading environment

## Spain's economy continues to demonstrate strength, with solid growth across key indicators

- **Spanish GDP is projected to grow by 2.5% in 2024, an increase of 0.4% from the spring forecast** while the projections for 2025 and 2026 remain unchanged at 1.9% and 1.7% year-on-year, respectively. This upward review is partly due to the better than expected first quarter data. Additionally, the adjustment reflects the expected improvement in private consumption, driven by a greater availability of savings.
- **CPI expectations has been increased to 3% for 2024.** For 2025, it is expected to be around +2% (+0.2% from previous estimations), and remain unchanged for 2026, at +1.8%.
- **The Bank of Spain forecasts an unemployment rate of 11.5% by year end 2024,** down 0.1% from the previous estimation, 11.3% in 2025 and 11.2% in 2026.
- Following the tenth consecutive interest rate hike in September 2023, **the ECB announced commencement of rate-cutting** for the first time in 8 years, **with 25 basis points in June 2024,** and another 25bps in September 2024 – in line with market expectations.
- According to data published by INE in July, **the number of accumulated foreign tourists that visited Spain in 2024 increased by 12.1% year-on-year** and total expenditure of foreign tourists in Spain until July, was €71.109 million - also 12.1% more.

# Footfall and sales index

Steady growth in both footfall and sales confirming the extraordinary strength of the portfolio

**FOOTFALL:**

- The accumulated number of visits for the portfolio increased by +3.7% (YTD AUG 24 vs YTD AUG 23).
- All assets are performing well. Vallsur SC is worth noting with an increase of +16% due to the outstanding performance of its new F&B area (value-add project)

**SALES:**

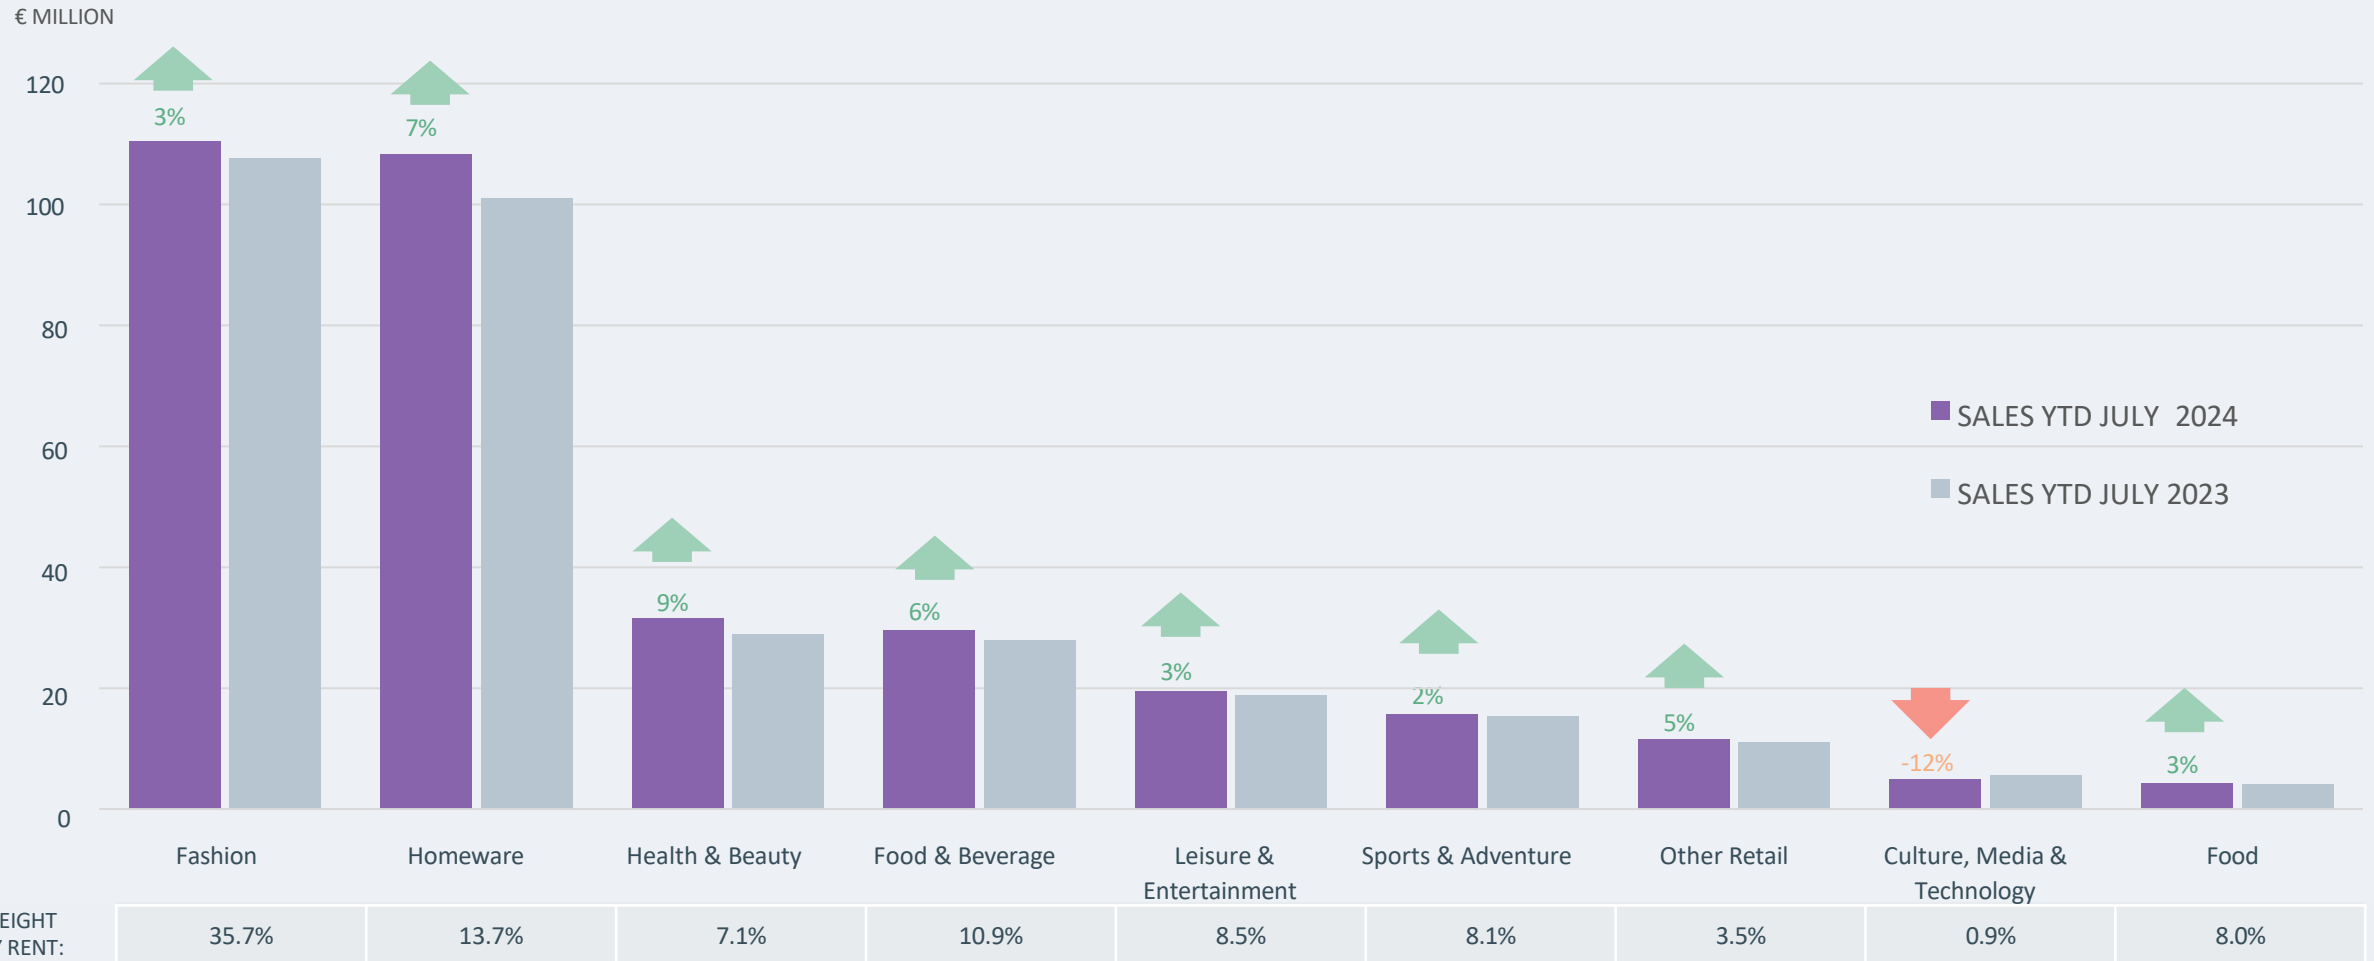

- Accumulated sales of tenants grew by +4.6% (YTD JUL 24 vs YTD JUL 23).
- Sales in retail parks increased by +7.0% (YTD JUL 24 vs YTD JUL 23) outperforming shopping centres, which registered an increase of +3.6%.

(1) Footfall data includes the following shopping centres: El Faro, Bahía Sur, Los Arcos, Vallsur, Habaneras, Puerta Europa, Granaita. There are no counters in the rest of the retail park assets. Granaita counts only cars, so we have estimated 2 people on average per car. Sales data includes all retail assets.

(2) Benchmark: APRESCO data (Association of Shopping Centre Owners).

# Sales performance per tenant category

Sales continue to grow consistently in all the categories

The services category has been excluded from the report due to inconsistent sales data.
