

KEY INDICATORS June 2021

BME Growth closes June with three new listings: ARTECHE, PARLEM TELECOM and INBEST VII SOCIMI

ARTECHE celebrated the traditional bell ringing on June 11 at the trading floor of Bilbao, while PARLEM TELECOM did the same in Barcelona on June 22.

ARTECHE, a company specialized in the design, manufacture and marketing of electrical equipment present in the areas of power generation, transport and distribution, was listed on BME Growth after raising more than €40 million through a mixed operation that combined a capital increase with partial divestment of the main shareholders. The company debuted with an initial valuation of €225 million.

On the other hand, PARLEM TELECOM, with an initial valuation of €45.5 million, is a telecoms operator from Catalonia that provides comprehensive telecommunications services for individuals and companies. It joined to BME Growth after raising 12.5 million euro through a capital increase subscribed by 235 shareholders.

New success case for the Pre Market Environment

The Pre Market Environment (EPM), BME's training and networking programme that prepares SMEs in expansion to know the functioning of capital markets and how to access to private and institutional investors, has achieved one of its most important milestones.

With the incorporation of PARLEM TELECOM, there are already two companies that have jumped into BME Growth from the EPM. The first company to make the leap was SOLUCIONES CUATROOCHENTA, in October 2020.
